Hilbert, David
Foundations of geometry. With supplementary material by Paul Bernays. 11th ed. (Grundlagen der Geometrie. Mit Supplementen von Paul Bernays. 11. Aufl.) (German)
Zbl 0246.50001

See the review of the 8th ed. (1956) in Zbl 0071.35803. Some hints to recent literature have been added.
For a review of the original (1899) see JFM 30.0424.01.
For a scan of this review see the web version.

MSC:
\begin{itemize}
\item [51-03] History of geometry
\item [51-01] Introductory exposition (textbooks, tutorial papers, etc.) pertaining to geometry
\item [01A75] Collected or selected works; reprintings or translations of classics
\item [01A55] History of mathematics in the 19th century
\item [01A60] History of mathematics in the 20th century
\item [51M05] Euclidean geometries (general) and generalizations
\item [51M10] Hyperbolic and elliptic geometries (general) and generalizations
\end{itemize}
