MSC:
46E15 Banach spaces of continuous, differentiable or analytic functions
46B10 Duality and reflexivity in normed linear and Banach spaces

Full Text: DOI

References:
[12] C. Stegall, Banach space whose duals contain $l_1(\mu)$ with applications to the study of dual $L_1(\mu)$ spaces, submitted to Trans. Amer. Math. Soc. · Zbl 0259.46016

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
