Duneau, Michel; Mosseri, Rémy; Oguey, Christophe
Approximants of quasiperiodic structures generated by the inflation mapping. (English) 
Zbl 0719.52015 

MSC:
52C22 Tilings in n dimensions (aspects of discrete geometry) 
82D25 Statistical mechanics of crystals

Keywords: 
aperiodic tiling; quasicrystal approximants; inflation symmetry; quasiperiodic pattern; algorithm
