Chandra, N. V. Mehta; Reddy, K. Ashish; Sushanth, G.; Sujatha, S.
A versatile approach based on convolutional neural networks for early identification of diseases in tomato plants. (English) Zbl 07492600

MSC:
22E46 Semisimple Lie groups and their representations
53C35 Differential geometry of symmetric spaces
57S20 Noncompact Lie groups of transformations

Keywords:
convolutional neural networks (CNN); VGG; resnet; inception; xception; mobilenet; densenet; image processing

Full Text: DOI

This reference list is based on information provided by the publisher or from digital mathematics libraries. Its items are heuristically matched to zbMATH identifiers and may contain data conversion errors. It attempts to reflect the references listed in the original paper as accurately as possible without claiming the completeness or perfect precision of the matching.
