Bernardi, Alessandra; D’Andrea, Carlos; Theobald, Thorsten

Foreword: Special issue of JSC on the occasion of MEGA 2019. (English) Zbl 1470.00015

From the text: MEGA is the acronym for Effective Methods in Algebraic Geometry (and its equivalent in various languages). In this series of biennial international conferences, with the tradition dating back to 1990, MEGA 2019 was the 15th one and was held during June 17–21, 2019 in Madrid.

MSC:
00B25 Proceedings of conferences of miscellaneous specific interest
13-06 Proceedings, conferences, collections, etc. pertaining to commutative algebra
